

Doyle Concrete

Hugginstown, Co. Kilkenny

RELIABLE
business partner

Company overview

The company was founded by David Doyle in 1972 – the company focused initially on constructing farm buildings and have grown to become of Ireland's top suppliers of Readymix Concrete and Easyflow Concrete Mix. These farm buildings play a vital role in the management and production of food. They consist of buildings for animal husbandry and the processing of food crops. The construction of farm buildings requires several basic materials, one of them being Concrete or Concrete Mix, for foundations, milking parlours, cattle slats, silage pits, farm roadways etc.

STANDARDS:

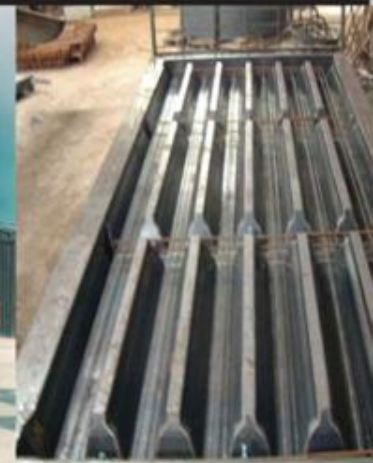

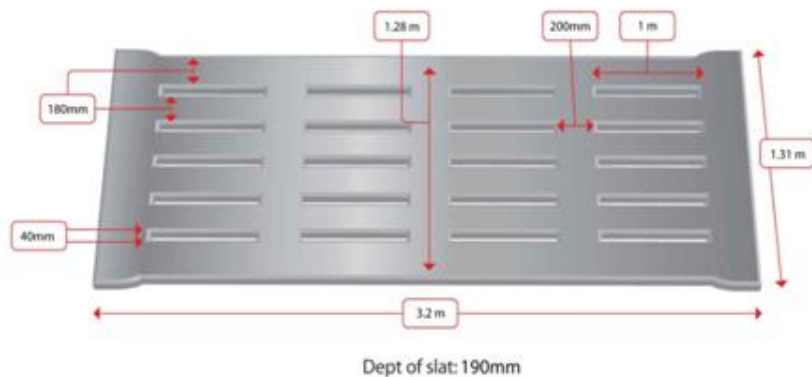

Products & Services

Doyle Concrete, have been manufacturing Pre-Stressed Cattle Slats for over twenty years, gaining valuable experience along the way with which to implement and advise your particular project.

Doyle Concrete, understand how your cattle handling and housing facilities is an integral part of your operation and linked to the efficient running of your farm.

10'6" Heavy Duty Cattle Slat

Design & Specification

Design

Our products have been designed to comply with the relevant Irish and UK laws and are approved by the Department of Agriculture. Products are regularly tested to ensure compliance with the latest standards.

Quality

Doyle Concrete carry out their own in-house quality standards for EN 206, and in addition are audited once a year to verify compliance in this important area.

Concrete

Grade 55N concrete. Minimum cement content 400kg/m³. Water cement ratio 0.45.

Cover

Nominal cover to steel 40mm in support beam, cattle slats and solid slabs.

Finish

Slats are supplied with a non-slip surface and a smooth side finish to minimise blockage of slots, leading to cleaner animals.

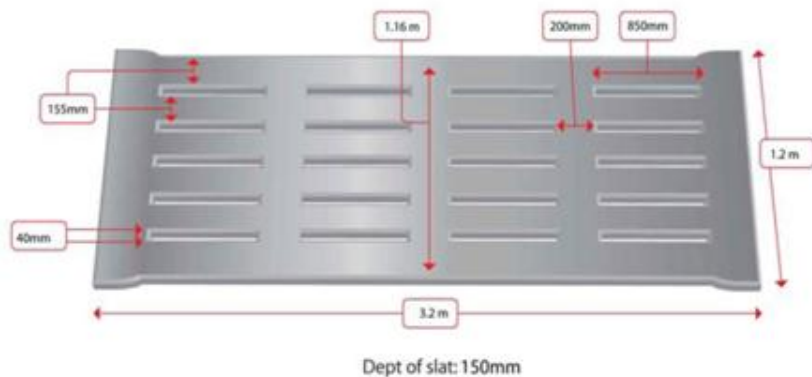

Measurements

Type	Span	Cover Width*	Depth	Nominal Gap
Heavy Duty Cattle Slat	3.2m	1.31m	190mm	40mm

Other available products

- 10'6" Ordinary Cattle Slat
- 14'6" Heavy Duty Cattle Slat
- 11'6" Cattle Slat
- 12'6" Ordinary Cattle Slat
- 12'6" Heavy Duty Cattle Slat
- 16'6" Heavy Duty Cattle Slat
